Call for Abstracts – Deadline 04 June 2019

INTRODUCTION
Heritage—natural and cultural—plays a key role in the sustainable development of cities and communities. Goal 11, target 4, of the Sustainable Development Goals (SDG) emphasizes the relation between heritage and sustainability, among other international policies. Heritage also plays a role in many more goals and targets. How can academics and practitioners work together to further our understanding and impact on heritage conservation, and consequently, on the sustainable development of cities and communities? This conference aims to facilitate the exchange of knowledge and experiences.

**TUDELFT-DESIGN AND HISTORY**
Design and History is an interdisciplinary cross-over research program @TUDelft, bringing together researchers—staff members, MSc, PhD students and post-docs—from different departments and disciplines: architecture, urbanism, history, landscape architecture, real estate and management and engineering.
The goal is to further our understanding on the role of history and heritage in the transformation of cities, and consequently using the past to enable buildings, cities and landscapes to develop more sustainable, resource efficient, resilient, safe and inclusive.

**LDE-HERITAGE**
The Centre for Global Heritage and Development (LDE-Heritage) is a collaboration of Leiden University, Delft University of Technology and Erasmus University Rotterdam. LDE-Heritage fosters an interdisciplinary approach, between sciences such as archaeology, architecture, the social sciences, the humanities, law, technology and design and urban and regional studies. LDE-Heritage goes beyond the traditional study of heritage, by focusing on how heritage relates to cultural, social, economic and environmental developments and decisions.

**SUBMISSION PROCEDURE**
You are very welcome to submit an abstract by e-mail (max 300 words). Only contributions in English can be accepted. The abstracts will be peer reviewed by the Scientific Committee, and when accepted you are welcome to submit a full paper (3000 words) for revision. Accepted papers will be published as open proceedings, together with the (authorized) videos of the paper presentations, in our conference website. A selection of papers will be published in 2020 at the Routledge Handbook on Heritage and Sustainability, edited by Ana Pereira Roders and Carola Hein.
