Work Plan 2018-20

1. ISC-T Membership Confirmation

The following members are confirmed and elected to remain:
Uta Pottgiesser (Germany) - Chair; Robert Loader (UK) - Secretary;
Iveta Czema (Czech Republic); Analia De Carvalho Amorim (Brazil), Emmanuelle Gallo (France); Franz Graf (Austria); Grazyna Hryncewicz-Lamber (Poland); Wessel de Jonge (Netherlands); Jong Soung Kimm (Korea); Susan Macdonald (Australia/USA); Tapani Mustonen (Finland); Kyle Normandin (USA), Theodore Prudon (USA) Jos Tomlow (Germany); Jadwiga Urbanik (Poland); Ola Wederbrun (Denmark);
Rémi Wei-Chou (Taiwan); Yoshiyuki Yamana (Japan);

The following members were confirmed to not be continuing:
none

New members and candidates of the ISC-Technology to be approved by Council Meeting:
Rui Humberto Costa de Fernandes Póvoas (Portugal) was nominated by Docomomo International and presented his CV to the ISC-T in Ljubljana. His nomination was confirmed by ISC-T, but he needs to become a member of Docomomo and confirmation of the national working party.

Note: All new interested members are encouraged to join and should follow up with respective national committees for nomination to the ISC-T committee.

2. Chair and secretary of the ISC/T for 2018-20

Uta Pottgiesser, prior Chair of committee, and Robert Loader, prior Secretary of committee, proposed to continue one additional term and were elected again by the ISC-T.

As a reminder: ISC-T previously (in 2014) agreed to have terms of 2+2 years (max. 4 years) for these positions and to provide an open process for re-election or rotating positions. This offers the opportunity to attract committee newcomers and to support candidates to assume more leadership in the committee over time.

As the committee is scheduled to meet on Tuesday, August 28, 2018, the committee will confirm elections and continued membership results at the scheduled council meeting on Thursday, August 30, 2018.

ACTION: The Board to be advised of the Chair of ISC-Ty including reconfirmation of listed members of the ISC-T committee. A call for new proposals (Chair – Secretary) will be launched in early 2020.
3. ISC-T Work Program 2018-20: Meetings, Seminars, Collaborations + Publications

3.1 Committee Meetings: The Committee has agreed to maintain the momentum of hosting one ISC-T seminar event and meeting per year. It is acknowledged that while this may seem ideal, it depends on members being able to carry out planned events. The emphasis is that the committee should organize a meeting on the years which fall in between international conferences; as such, this would continue to provide an opportunity for committee members to meet and to continue to work on initiatives of the committee.

Two proposals in conjunction with another event were received for an ISC-T Meeting 2019:

1. DOCOMOMO Germany Conference, March 1, 2019 in Berlin (Uta Pottgiesser)
2. ‘Preserving the Recent Past 3 Conference’, March 14-16 in Los Angeles (Susan MacDonald/Kyle Normandin).

One proposal was discussed in relation to current research of Jos Tomlow in Hongkong and Shanghai for an ISC-T Meeting 2021:

1. Organize a Docomomo Seminar in Hongkong/Macau (Remi Wei-Chou)

**ACTION:** Members to develop content for the upcoming ISC-T committee meetings. Goal is to push the limits and explore unknown but relevant fields and knowledge in technology.

3.2 Seminars and Themes: ISC Collaborations

The idea of collaborating with the other committees, particularly Education & Theory, Interior Design and Registers was increased in 2016-18. The seminars in Antwerp (2018), the collaboration with the Erasmus+-Project ‘Re-use of Modernist Buildings (RMB) and the survey on educational programs are good examples that will be followed further. This will be done by supporting the Student Workshop at 16 IDC in Japan

**ACTION:** It is agreed that the committee’s willingness and interest in working with other committees on some joint events would be presented to the Board.

3.3 Publications

11 Dossiers are published online at ISSUU, 3 more need to be prepared: https://issuu.com/docomomoisctechnology. Link to be placed at DOCOMOMO-website.

The organizers of the ISC-T seminars in Delft and Antwerpen have taken initiative to publish a dossier or a DOCOMOMO Journal as a summary of both seminars. The publication is planned for 2019.

Uta Pottgiesser and Angel Ayon (DOCOMOMO US) are preparing a publication on ‘Reglazing Modernism’ for 2019.

Further publications of other members will be announced and sent for announcement to DOCOMOMO International.
Proposed Recommendations for Council Meeting

1. The ISC-T has (co-)organized two seminars on ‘Plastic in Modern Movement’ in 2017-18:
   Seminar 1 took place on ‘Synthetic building components’ on October 22, 2017 at TU Delft (organized by Wessel de Jonge and Wido Quist).
   Seminar 2 took place on ‘Plastic interiors, objects and finishes’ on March 5, 2018 at University of Antwerp (organized by Uta Pottgiesser, Zsuzsanna Bőrocz and Marieke Jaenen) as a collaboration with ISC-Interior Design.
   Both will be documented as DOCOMOMO Journal or as a Dossier in 2019.

2. The ISC-T is open to collaboration with other ISCs and working parties.

3. The ISC-T proposes Rui Humberto Costa de Fernandes Póvoas (Portugal) for approval by the council meeting (and confirmation by the national working party).

4. The ISC-T may review the action plan regularly during its yearly meeting in order to formalize the Strategic Plan.

5. ISC-T shall elect or re-elect a Chair and Secretary every four years. Term limits which are clearly stated and part of DOCOMOMO International bylaws, will be followed for each position and shall be assessed and voted upon every four years.

6. Similar to past conference, committee members of the ISC-T would like to have the opportunity to provide input and to help local organizing committees plan DOCOMOMO International Conferences. Specifically, the ISC-T is interested in providing input into the development of technical subthemes of each conference prior to formalizing the call for papers.

28. August 2018 Uta Pottgiesser
